Our First Priority: Prevention!

Founded in 2006, Hygie® is an innovative company who has been developing, manufacturing and marketing specialized products to efficiently reduce the spread of bacteria, consequently, reduce the risk for infection in health care. We are well established in Canada, in more than 700 health care facilities and in home care. We now offer a full line of hygiene products for outdoor activities and travel. At Hygie Canada, we understand the acute needs of our customers. We offer a range of revolutionary products in the field of hygiene, designed to make life easier and simpler for all users.

Our company has distinguished itself from the competition with its patented Hy21® technology. Our products consist of Supports and Hygienic Covers® capable of managing body fluids that are partly responsible for nosocomial infections. Our Quebec based company holds patents in 38 countries and we are currently developing the United States, Europe, Asia and Latin America markets while continuing to offer outstanding service and reliability to the Canadian market.

Since 2014, along with our subsidiary company Hy-Industrie, Hygie Canada has been fully vertically integrated, ensuring a Canadian production as well as superior quality assembly. This has allowed us to maintain a firm control over the quality of the products we offer while simultaneously ensuring the most competitive price on the market. In this process of continuous improvement, we focus our efforts and resources on development, marketing and the global ranking of our products for the benefit of our customers around the world.

THE HY21® TECHNOLOGY

Designed in Quebec, the Hy21® technology is based on one principle: prevention. This technology is based on a support system made of plastic and Hygienic Covers® made from recycled materials. This makes it safe and easy for health care providers who are called upon to assist patients presenting a variety of infections. Recommended for single-patient use, these products retain bacteria in a closed space therefore helps prevent and limit their proliferation. The range of Hy21® products offer a wide variety of features to better meet the patients' needs both in a hospital environment or in home care services. Here is a list of our various Hy21® Supports:

- Hy21® Bedpan Support
- Hy21® Urinal Support
- Hy21® Vomit Support
- Hy21® GOPEE Support

ISO 13485 Ensuring patient safety

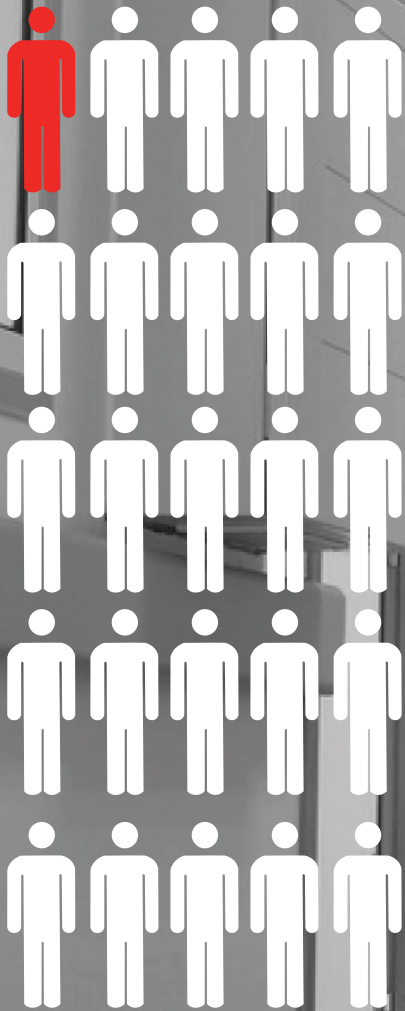

Obtaining ISO 13485 certification proves our commitment to the quality of our medical material. This allows us to demonstrate that our quality management system has been evaluated and found compliant with the regulatory requirements as well as with the needs of our clients.

"1 in 25 patients suffer from a nosocomial infection."

BEDPAN SUPPORT

HY21® TECHNOLOGY

Product Code: BA-BASS-HY21-000

Used with Hygienic Covers®, the Hy21® Bedpan Support with handle replaces both the standard and orthopedic bedpan. The innovative Hy21® technology makes manipulation and use easier for all types of patients who require bedpans.

Recommended for single-patient use, the Hy21® Bedpan Support used with the Hygienic Cover® reduces the time needed to dispose of body fluids, as well as washing and disinfecting soiled equipment (one support per patient, per hospital stay).

The supports are made entirely of durable and recyclable polypropylene plastic. They are stackable to optimize storage space.

SPECIFICATIONS

- Support size:
38.5 x 29.6 x 10.6 cm / 15.5 x 11.75 x 4 in
- Units per case: 20

with Hygienic Cover®

HYGIENIC COVERS® FOR BEDPAN / COMMUNE CHAIR

Product Code: SA-HYGI-CLBI-000

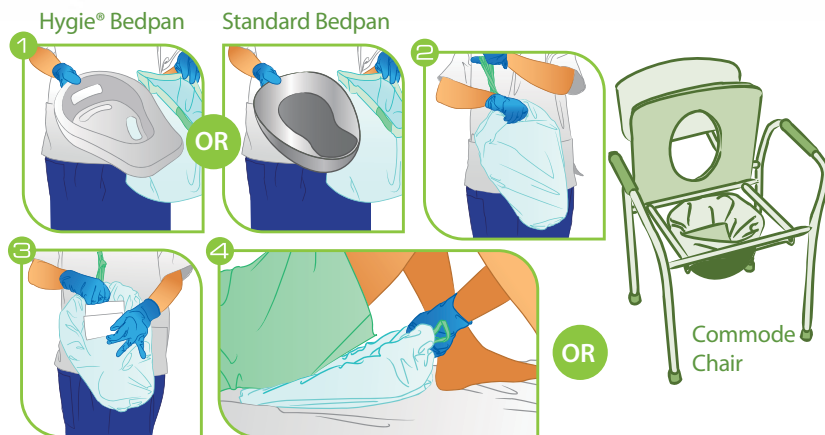

Hygienic Covers® for bedpan and commode chair are the perfect solution to manage and contain body fluids at point of care, while reducing the risks of cross-contamination.

In less than 30 seconds, the super absorbent pad in the Hygienic Cover® will turn, up to 600 ml of body fluids, into gel, thus reducing clean-up and splashing. After use, simply tie and discard in the designated area.

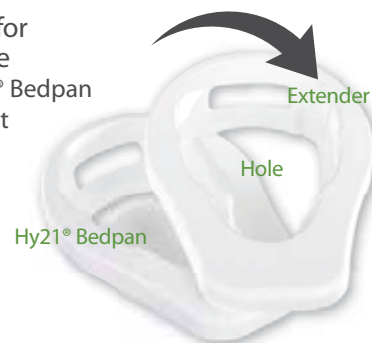

The Hygienic Covers® are made from recycled material and the super absorbent pad from 100% recycled material.

SPECIFICATIONS

- Hygienic Cover® size: 62.2 x 45.7 cm / 24.5 x 18 in
- Unit box size: 20 x 11.4 x 11.4 cm / 8 x 4.5 x 4.5 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

URINAL SUPPORT

HY21® TECHNOLOGY

Product Code: HY-SUPP-URI3-000

Unique Design
Unisex - Suitable
for men and women

Used with Hygienic Covers®, the Hy21® Urinal Support with handle allows to efficiently manage and keep urine at point of care. It is ideal for patients who are ill or with a loss of mobility. While easy for men to manipulate, this unique design was created to accommodate the female anatomy with a wide opening to avoid spills or leaks.

Recommended for single-patient use, the Hy21® Urinal Support with the Hygienic Cover® reduces the amount of time needed to dispose of body fluids and to wash and disinfect the soiled equipment (one support per patient, per hospital stay).

The handle makes manipulation easy and can be used to hook the urinal support to the bed, keeping the urinal close at hand.

The supports are made entirely of durable and recyclable polypropylene plastic.

SPECIFICATIONS

- Support size:
13 x 9.5 x 24.4 cm / 5.1 x 3.7 x 9.6 in
- Units per case: 20

with Hygienic Cover®

HYGIENIC COVERS®

FOR URINAL SUPPORT

Product Code: SA-HYGI-URI0-000

Hygienic Covers® for Hy21® Urinal Supports is a quick and efficient solution to dispose of urine, while simultaneously avoiding inconveniences, such as cleaning up, splashing and spills, and reduce the risks of cross-contamination.

In less than 30 seconds, the super absorbent pad in the Hygienic Cover® will turn, up to 600 ml of body fluids, into gel. After using, simply tie and discard in the designated area.

Super absorbent pad made of 100% recycled materials.

Optimal use

Adjust the position of bed to ensure that the patient is fully comfortable. The product is more efficient if the patient is in a half-seated position, rather than completely lying down on their back. Lay the super absorbent pad flat in the Hygienic Cover® or fold in two and place it at the bottom of the Hygienic Cover®.

SPECIFICATIONS

- Hygienic Cover® size: 35 x 15.5 cm / 13.8 x 6.1 in
- Unit box size: 25 x 5 x 15 cm / 9.8 x 2 x 6 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

Part of Hygie's containment technology

VOMIT SUPPORT

HY21® TECHNOLOGY

Product code: HY-SUPP-VOMO-000

Used with Hygienic Covers®, the Hy21® Vomit Support with handle is the quick and efficient solution to dispose of body fluids, while simultaneously avoiding all inconveniences such as clean-up, splashing and spills. It is essential for any person with the urge to vomit, whether in an institution, at home or on the road. Particularly recommended for oncology, dialysis, postoperative recovery rooms and also ideal for gastroenteritis.

Recommended for single-patient use, the Hy21® Vomit Support with the Hygienic Cover® reduces the amount of time needed to dispose of body fluids, as well as washing and disinfecting the soiled equipment (one support per patient, per hospital stay).

The supports are made entirely of durable and recyclable polypropylene plastic. They are stackable to optimize storage space.

SPECIFICATIONS

- Support size:
19 x 11.5 x 13 cm / 7.5 x 4.5 x 5.1 in
- Units per case: 20

with Hygienic Cover®

HYGIENIC COVERS® FOR VOMIT SUPPORT

Product Code: SA-HYGI-VOMO-000

Hygienic Covers® for Hy21® Vomit Support is the quick and efficient solution for anyone with the urge to vomit who wishes to avoid inconveniences such as cleaning up and splashing, thus reducing the risks of cross-contamination.

In less than 30 seconds, the super absorbent pad in the Hygienic Cover® will turn, up to 600 ml of body fluids, into gel, thus reducing clean-up and splashing. After using, simply tie and discard in the designated area.

Super absorbent pad made of 100% recycled materials.

SPECIFICATIONS

- Hygienic Cover® size: 25 x 25 cm / 9.8 x 9.8 in
- Unit box size: 25 x 15 x 5 cm / 9.8 x 6 x 2 in
- Units per case: 400 (20 boxes of 20 Hygienic Covers®)

Part of Hygie's containment technology

HYGIENIC COVERS®

FOR TOILET BOWL

Product Code: SA-HYGI-PCWC-000

The Toilet Bowl Hygienic Cover® with super absorbent pad transforms a traditional toilet into a dry toilet, thus eliminating the need for flushing. Recommended to dispose of urine and stools contaminated by biocides, or radioactive or chemotherapeutic substances. They are ideal when samples need to be collected for analysis, or simply when no water is available.

In less than 30 seconds, the super absorbent pad in the Hygienic Cover® will turn, up to 600 ml of body fluids, into gel, thus reducing clean-up and splashing. After use, simply tie and discard in the designated area.

The Hygienic Covers® are made from recycled material and the super absorbent pad from 100% recycled material.

SPECIFICATIONS

- Hygienic Cover® size: 71 x 45.7 cm / 28 x 18 in
- Units per case: 360 (20 rolls of 18 Hygienic Covers®)

SUPER & EXTRA ABSORBENT

ABSORBENT PADS IN TWO SIZES - UP TO 1000 ML

Product Code: SA-TAMP-ABSO-020 (9,5 x 5 po)
Product Code: SA-PADS-8X95-000 (9,5 x 8 po)

SUPER ABSORBENT PAD
9.5 x 5 in
Gelifies up to 600 ml

This super absorbent pad will turn up to 600 ml of body fluids into gel in less than 30 seconds. It is recommended particularly for nosocomial infections, reducing clean-ups and risks of splashing and spills. Practical and efficient, it makes collecting, transportation and disposal much safer. Made from 100% recycled material. Used inside the Hygienic Covers® for Bedpans, Vomit and Urinals.

Case of 400 

SPECIFICATIONS: SA-TAMP-ABSO-400

- Pad size: 22.8 x 12.7 cm / 9.5 x 5 in
- Units per case: 400 (10 packs of 40 units)

Case of 600 

SPECIFICATIONS: SA-TAMP-ABSO-020

- Pad size: 22.8 x 12.7 cm / 9.5 x 5 in
- Units per case: 600 (20 packs of 30 units)

EXTRA ABSORBENT PADS
9.5 x 8 in
Gelifies up to 1000 ml

Larger and more absorbent. The new EXTRA absorbent pad will turn up to 1000 ml of fluids into gel. This new size is recommended particularly for more abundant quantities of fluid, thus reducing clean-ups as well as the risks of splashing and spills. Practical and efficient, it makes collecting, transportation and disposal much safer. Made from 100% recycled material.

Case of 400 

SPECIFICATIONS: SA-PADS-8X95-000

- Pad size: 22.8 x 20.32 cm / 9.5 x 8 in
- Units per case: 400 (10 packs of 40 units)

- Limits the spread of bacteria
- Can be used for multiple purposes such as home, medical or industrial use
- To be applied directly on the fluids

SPECIFICATIONS

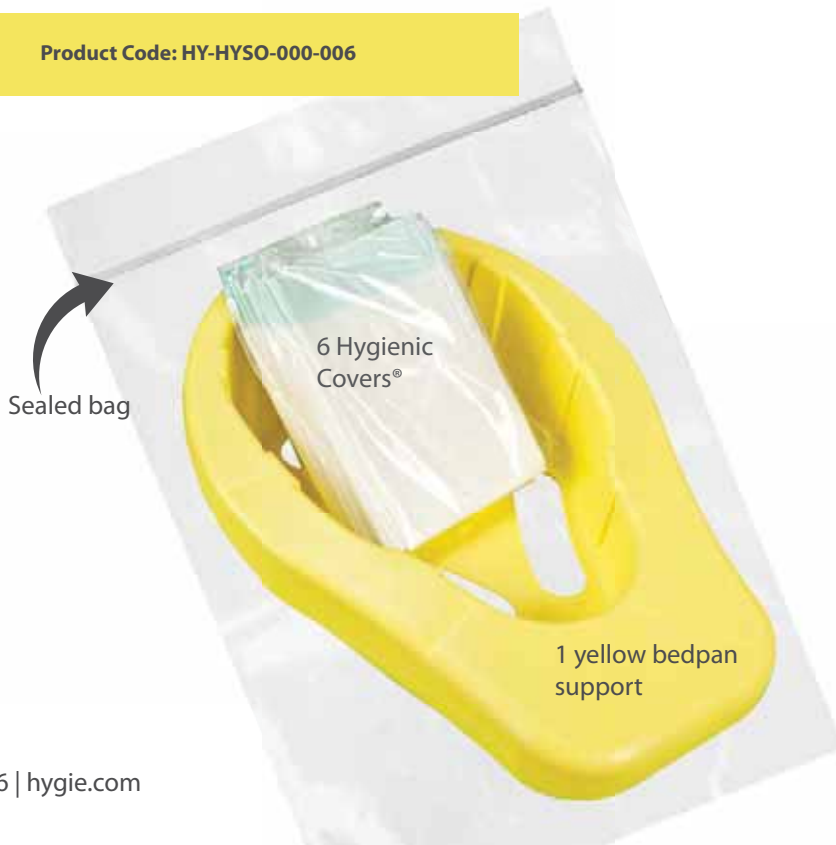

- Units per case: 12 bottles of 450g

hygienic

HY-SO[®] Kit

ISOLATION OF BACTERIA

Product Code: HY-HYSO-000-006

The Hy-SO[®] kit is a prevention tool to proactively isolate a patient as soon as he or she presents the first symptoms of a nosocomial infection. The kit prevents the spread of pathogens, which may cause contamination.

The use of Hygienic Covers[®] allows health care personnel to quickly and efficiently finish their clean-up and disinfection tasks.

Hygie's containment technology contributes to the reduction of risks and costs associated with HAI's (healthcare associated infections).

The handle makes it easier for health care personnel to manipulate the support when caring for patients. The edges of the bedpan offer greater stability and improved comfort for patients.

SPECIFICATIONS

- The Hy-SO[®] kit includes: 1 Hy21[®] yellow bedpan support + 6 Hygienic Covers[®]
- Units per case: 6

HYGIENIC™ GARBAGE BAGS MADE OF RECYCLED MATERIAL

- White garbage bags with closure cords, ultra resistant to any type of waste.
- Made of recycled material
- No super absorbent pad inside
- Can be used for multiple purposes such as home, medical or industrial use
- Thicker plastic film makes garbage bags much more resistant to tear or heavy weight.
- Bag size: 62.2 x 45.7 cm x 24.5 x 18 in
- Units per case: 400 (10 rolls of 40 bags)

WET WASH GLOVES

WITH CLEANSING SOLUTION — SINGLE USE

Product Code: 1-GLOV15

hygienic™

**Fragrance free
Latex free**

The Hygienic™ Wet Wash Gloves made of polyester are both soft and ultra resistant. Containing no soap or alcohol, they are perfect for bed-ridden patients, incontinent patients, those requiring home care and can even be used during leisure activities. The gloves are soaked in an aloe-based cleansing solution, and are hypoallergenic and dermatologically tested. The cleaning gloves can be warmed up in a microwave oven for greater comfort.

In health care institutions, the bowl-less toilet helps lessen the risks of transmitting pathogens from patients to health care personnel or even to other patients.

SPECIFICATIONS

- Glove size: 23 x 17 cm / 9 x 6.75 in
- Units per case: 210 (15 packs of 14 gloves)

Available 2016

GO GLOV® DISPOSABLE GLOVE

REPLACES WASHCLOTHS — SINGLE USE

Product Code: GA-SEC-01

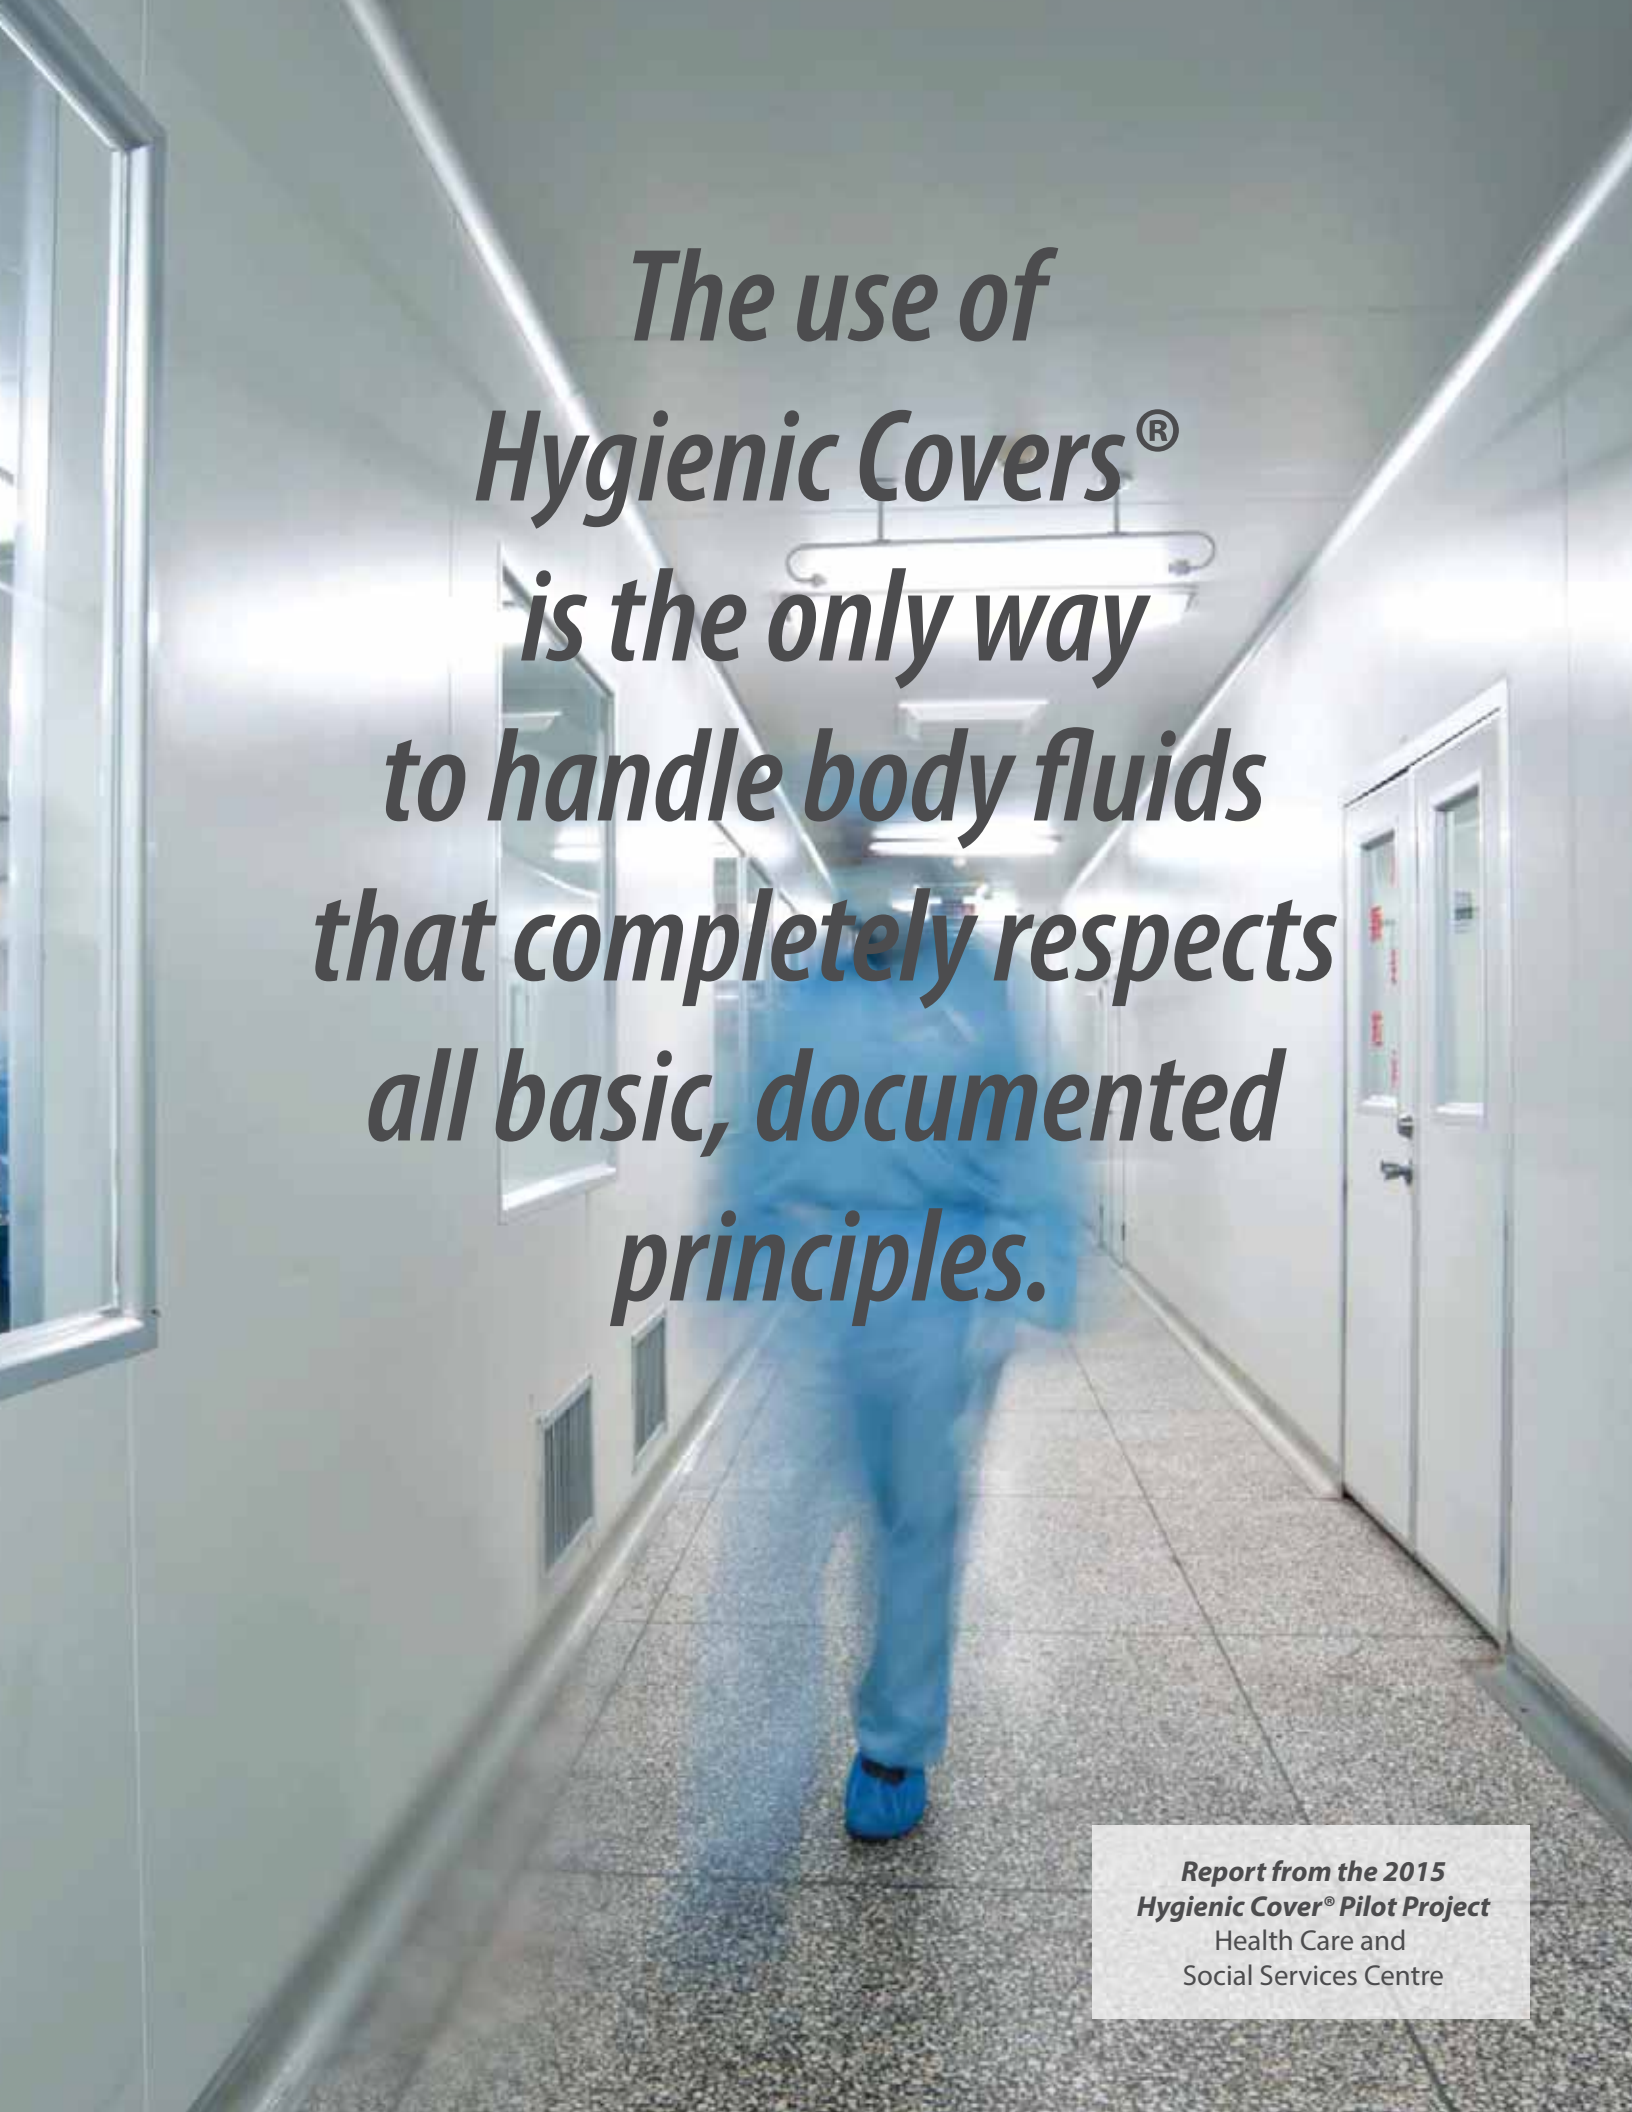

Ready to use, the GO GLOV® can replace the washcloth for patients' personal hygiene in medical institutions, retirement homes, during home care services and in maternity wards. This single-use product offers a superior level of hygiene and decreases the spread of pathogens, which lead to contamination and HAI's (healthcare associated infections).

Made of very soft, lint-free cloth, it is resistant and hypoallergenic. Its fibres meet the OEKO-TEX® Standard 100 Class 1 requirements, which makes the product safe to use on babies' skin.

SPECIFICATIONS

- GO GLOV® size: 16 x 22 cm / 6.25 x 8.5 in
- Units per case: 1000 (20 packs of 50 units)

A blurred person wearing a blue protective suit and blue shoe covers is walking away from the camera down a long, brightly lit hospital corridor. The corridor has white walls, a tiled floor, and several doors on the right side. The text is overlaid on the image.

HYGIE ALU-CLASSIC®

100% ALUMINUM COMMUNE CHAIR

Pivoting armrests

The sturdy, secure armrests can be lowered by pressing a button. They also pivot along the seat axis, which frees that area and facilitates patient transfers.

Easy to clean

This commune chair was specially designed to minimize gaps and hard-to-reach spaces, ensuring quick and easy disinfection.

Wheelbase

The wheelbase of the Hygie Alu-Classic® Commune Chair's frame makes it highly stable and secure for the patient, reducing the risk of overturning.

Single-patient seats

The seats reduce the amount of time necessary for the disposal of body fluids and solids. Easily manipulated from the top of the Commune Chair, it simplifies the work of the health care personnel. The use of Hygienic Cover® recommended. (Used with the Alu-Classic® Commune Chair and the Classic® Commune Chair on page 22).

"This commune chair effectively meets the needs of controlling infections in health care institutions because it does not contain any porous material, which facilitates cleaning and disinfection."

France - Nurse specializing in the prevention of infections

Adjustable height

The leg extender allows for optimal, patient-tailored adjustments. Five heights available. This adjustment provides additional comfort for patients and a more comfortable posture for care staff.

Rubber wheels

The 4-inch rubberized wheels offer 360° pivoting action and are equipped with individual manual brakes to fully immobilize the commune chair. The rubber also improves floor grip without leaving scuff marks.

Made in Canada

The lightness of the commune chair's frame is due to its aluminum construction. The slight tilt in the seatback provides better comfort to the patient.

HYGIE CLASSIC®

STEEL COMMUNE CHAIR WITH *E-COAT* COATING

Sturdy and Classic

The Hygie Classic® Commune Chair was designed to meet the need of controlling infections in health care institutions. Hygienic Covers® may be used with the Hygie Classic® Commune Chair to limit the spread of pathogens and to prevent contamination of the environment.

The frame of the Hygie Classic® Commune Chair has a greater wheelbase depth than most commune chairs available on the market, which renders it safer and more stable.

Anti-splash PVC bucket (sold separately)

- ✓ Made of steel with *E-COAT* coating
- ✓ Sturdy and stable
- ✓ Adjustable height
- ✓ Easy to clean
- ✓ Pivoting armrests
- ✓ Non-porous surfaces
- ✓ Available in large sizes (24 inches in width)

SUSTAINABLE DEVELOPMENT

REDUCE. REUSE. RECYCLE.

Sustainable development is defined as creating products using only methods that reduce negative impact to the environment. This saves energy and natural resources and poses no danger to employees, communities or consumers.

SUPER ABSORBENT PAD 100% RECYCLED MATERIAL

Super absorbent pads are made from 100% recycled material. No chloride, no aluminum, no alcohol and no perfume.

HYGIENIC COVERS® MADE OF RECYCLED MATERIAL

Hygienic Covers® are made from a rich mixture of high quality, recycled polyethylene resins. They are very resistant and offer an increased level of hygiene.

HY21® SUPPORTS 100% RECYCLABLE MATERIAL

All Hy21® Supports from Hygie, such as the Bedpan Support, the Vomit Support and the Urinal Support are made entirely of durable and recyclable polypropylene plastic.

PACKAGING 100% ENVIRONMENTALLY FRIENDLY

Packaging and shipping boxes are made from recycled paper and water-based ink. 100% recyclable
